

B. Ralph Chou, MSc, OD

Associate Professor, School of Optometry (ret.)
University of Waterloo
Waterloo, Ontario, Canada N2L 3G1

Dr. Chou is world-renowned within the eclipse community as the world's leading expert on eclipse eye safety. He wrote the ISO standard for eclipse glasses that has been adopted as THE standard for certifying SAFE eclipse glasses and filter material.

Dr. Chou's lab certifies all new products as being safe for direct solar observation. ALL eclipse glasses sold by eclipse2024.org conform to this standard, and are manufactured in the USA by companies who have submitted their products to this rigorous testing.
