

Public Observing Opportunity @ Emily Provincial Park

Come out to Emily Provincial Park (near Omemee) on August 27th, 2022 for another astronomical viewing opportunity with the Peterborough Astronomical Association (PAA). After about 8:30 p.m. (weather permitting) there will be telescopes and many things to see, with sky tours provided by PAA members. This is a weather permitting event, so check the website after 6:00PM, peterboroughastronomy.com, for go/no-go. Also check the website for maps with directions to the Park and the In-Park location.

Campers and PAA members with ID are admitted free. Others must purchase an Ontario Park's Day Vehicle Permit.

Don't miss this chance to "see the stars and the planets"!
